

Enough is enough!

Dear _____

Our schools over the past two years have received unprecedented amounts of cuts. Next year's budget being considered by the House projects a base student cost of \$1,630 - the same level provided by the State in 1995. That was 15 years ago! We are likely to get another \$9 million cut from Education Improvement Act funds, which have already been cut by \$112 million over the past two years. These cuts threaten our ability to sustain the gains we've made and impair our State's economic development efforts. I ask that you:

- **support local funding flexibility** and a temporary freeze of the Index of Taxpaying Ability as published in February 2009;
- **oppose any legislation that would mandate** new programs, spending or financial obligations; and
- **support new revenue streams** such as removing outdated tax exemptions and increasing the lowest-in-the-nation cigarette tax to the national average
